KEEP THIS  
DOCUMENT SAFE

MUNICIPAL INFORMATION DOCUMENT  
ON MAJOR RISK

City of **Conques-sur-Orbiel**  
**2022**

Conques sur Orbiel

Prevention is our priority

Public information and awareness about major risks in our town are key to effective prevention.

The municipal council has decided to produce a local emergency action plan (PCS) to maintain public safety and better protect residents' property, as well as the surrounding environment. The purpose of the plan is to define preventive and contingency measures to deal with a crisis event. Developing this PCS also meets a statutory obligation.

This municipal information document on major risks (DICRIM) features hazards that pose a threat to our local area. It provides a reminder of safety guidelines to be followed, warning systems provided by the municipal council, emergency call numbers and what to do if the town was to experience an emergency. This document is a summarised English language version of the DICRIM which I encourage you to read and keep in a safe place.

If the worst does occur, staying alert and helping one another are vital and also life-saving.

The Mayor of Conques-sur-Orbiel

# FLOODS

## BEFORE

- Move furniture and valuable items to safety
- Block doors and windows, tether heating oil tanks
- Remove vehicles parked near riverbanks

## DURING

- Don't try to meet close friends and family or collect your children from school, don't drive, postpone your journeys
- Stay informed and listen out for guidance from the authorities in the media, social networks and official websites
- Check on family members, neighbours and vulnerable people
- Shelter on higher ground, don't access basement car parks
- Don't go out on flooded roads by car or on foot

## AFTER

- Keep up to date with any changes in the situation
- Air and disinfect rooms in your house
- Turn the heating on as soon as possible
- Don't switch the electricity back on until the system is dry
- Notify your insurance company about the flood as soon as possible

# WILDFIRES

## BEFORE

- Clear undergrowth from around your house
- Clear gutters where dead leaves can collect

## AFTER

- Leave your house wearing protective clothing (leather shoes and gloves, cotton clothes and a hat), inspect your house and watch embers, extinguish any remaining flames without taking unnecessary risks
- Notify your insurance company about the fire as soon as possible

## IF YOU SEE A FIRE START

- Call the fire brigade immediately
- If possible, try to contain the fire breathing through a wet cloth or piece of fabric

## A PROTECTED HOUSE IS THE BEST FORM OF SHELTER

- Close and hose down shutters, doors and windows
- Block air vents with wet cloths and towels

## IN THE COUNTRYSIDE

- Get away from the fire and smoke as soon as possible
- Don't get out of your car
- Switch off any gas or electrical appliances or devices

## Safety guidance Key points

Don't use the telephone

Listen to the radio

Stay above ground

Switch off gas and electricity

Don't drive

Close windows and doors

Leave children in school

Move to upper floors

## Safety guidance Key points

Don't use the telephone

Close windows and doors

Don't drive

Switch off gas and electricity

Distance yourself from the fire

Take shelter in a permanent building

Leave children in school

Clear any access roads and paths

# GROUND MOVEMENTS

## SUBSIDENCE

### DURING

- If inside, use your arms to protect your head, keep away from windows and shelter under a solid piece of furniture
- If outside, shelter in the nearest permanent building

### AFTER

- Switch off gas and electricity, evacuate buildings and do not return, don't use the lift (elevator)
- Vacate the dangerous area and go to a muster point
- Follow instructions from the authorities

## COLLAPSE / CAVE-IN

- If inside, evacuate the building immediately and do not return, don't use the lift (elevator)
- If outside, vacate the dangerous area and go to a muster point, follow instructions from the authorities

# TRANSPORTING HAZARDOUS MATERIAL

## IF YOU WITNESS AN ACCIDENT

- Alert the fire brigade or police with:
  - The exact location of the accident
  - The type of transport involved
  - The type of accident

## IF A SPILL OCCURS

- Go to the nearest building and stay there
- Don't touch or come into any contact with the substance, don't smoke
- Vacate the accident site in the opposite direction of the wind to avoid inhaling any eventual poisonous gas

## ONCE THE ALERT IS OVER

- Air the place you sheltered in
- If you think you have come into contact with the substance or feel some irritation, shower, change clothes and consult a doctor

## Safety guidance Key points

### SUBSIDENCE

Keep away from buildings

Evacuate buildings

Follow safety guidance

### CAVE-IN

Shelter under furniture (table)

Evacuate buildings

Switch off gas and electricity

Find a safe place

## Safety guidance Key points

Don't use the telephone

No naked flames or sparks

Leave children in school

Call emergency services

Switch off gas and electricity

Take shelter in a permanent building

Listen to the radio

# WEATHER EVENTS

SNOW, ICE, HEATWAVES, THUNDERSTORMS, EXTREME COLD, HIGH WINDS

## SNOW / ICE

- Limit any journeys and don't take risks
- Obey traffic restrictions and follow diversions
- Give way to snow ploughs
- Clear snow and salt footpaths in front of your house
- Don't touch fallen power lines

## THUNDERSTORMS

- Don't shelter under trees
- If in a car, stay inside and quickly park in a safe, unexposed area, switch off the engine and don't touch any metal parts
- Don't travel or go for a walks in the forest or mountains
- Alert the fire brigade immediately if you see a fire start

## EXTREME COLD

- Wear warm clothes and remove any wet items
- Air your home once a day
- Call 115 if you see anyone in need of help
- Stay in touch with vulnerable friends or family members

## HEATWAVES

- Limit any journeys
- If you do go out, wear a hat and light-coloured, loose (cotton) clothes
- Keep windows shut when outside temperatures are higher than indoors. Open them at night to allow air to circulate. Half-close shutters and blinds facing the sun
- Take refuge in a cool spot for at least 2-hours a day
- Drink as much as possible, even when you're not thirsty. Avoid alcohol as this exacerbates dehydration
- Check on close family or friends who live on their own, are vulnerable or dependent on assistance and help them to eat and drink.

## HIGH WINDS

### BEFORE

- Store or tie down objects likely to blow away
- Shelter in a permanent building, closing doors and shutters

### DURING

- Don't go outside under any circumstances
- Unplug electrical appliances and devices

### AFTER

- Repair what can easily be reinstated (especially roofs)
- Watch out for fallen power and telephone lines and trip hazards (chimneys, roofs, poles and posts, etc.)
- Cut down branches and trees that may fall

## Risk management measures

Météo France's **weather warning map** is updated at least twice a day (at 6 am and 4 pm), or more frequently as weather events change. It informs the population about a possible dangerous weather event within 24-hours. Radio, television and internet relay information when the two highest levels are reached (orange and red).

The weather warning map covers the following events: high winds, high waves and storm surges, rainfall and flooding, thunderstorms, snow and ice, avalanches, heatwaves, and extreme cold.

**Specific protective measures** can be triggered via the ORSEC Plan for extreme cold or heatwaves.

View the weather warning map for further information :

# RAINFALL-FLOODING

## the 8 actions to take

in the event of heavy Mediterranean rainfall

**Stay informed**  
and listen to the authorities' instructions in the media and on social networks by following the official accounts

**Do not go out in your car and postpone any journeys**

**Keep an eye on loved ones, neighbours and vulnerable people**

**Keep away from waterways**  
keep clear of riverbanks and bridges

**Do not go out**  
Take shelter in a building. Do not take shelter beneath a tree due to the risk of lightning

**Don't go down into the basement, take shelter above ground, high up**

**Do not go anywhere in your vehicle or on foot**  
Submersible bridge, ford, underpass... Less than 30cm of water is enough for a car to be swept away

**Don't go and pick up your children from school, they are safe there**
